

**U.S. IOOS Advisory Committee  
Homework Assignment: “Setting Expectations”**

*Instructions:* In 300 words or less, please share your expectations for your participation on the IOOS Advisory Committee. The goal of this exercise is to flesh out what contributions the committee members (you!) feel are important for the Advisory Committee during the current term. Please answer from the perspective of, “what can the Advisory Committee be doing to facilitate the success of the IOOS Enterprise?”

Please review and consider the materials provided in advance of the public meeting as resources to inform your thinking on this assignment-- you will receive those on August 7th, and they include the IOOS Enterprise Questionnaire Responses, IOOS Association and IOOC 101’s, the 2018-2022 IOOS Enterprise Strategic Plan, language from the IOOS Act of 2009, and the FY20 IOOS Enterprise Annual Guidance Memorandum.

Include the following in your response:

1. Where do you expect the IOOS Advisory Committee to be in 1, 2, or 3 years?
2. What are some things you would like to encourage the IOOS Advisory Committee to work on?
3. What are some areas you would discourage the IOOS Advisory Committee from focusing on?

Please provide your name, as well as your response, below. Save this page as a word document and send it to [becca.derech@noaa.gov](mailto:becca.derech@noaa.gov) by August 14th. Thank you for your participation!
