12:00 - 13:00 Lunch  
13:00 - 15:00 Breakout Discussions  
15:00 Meeting End

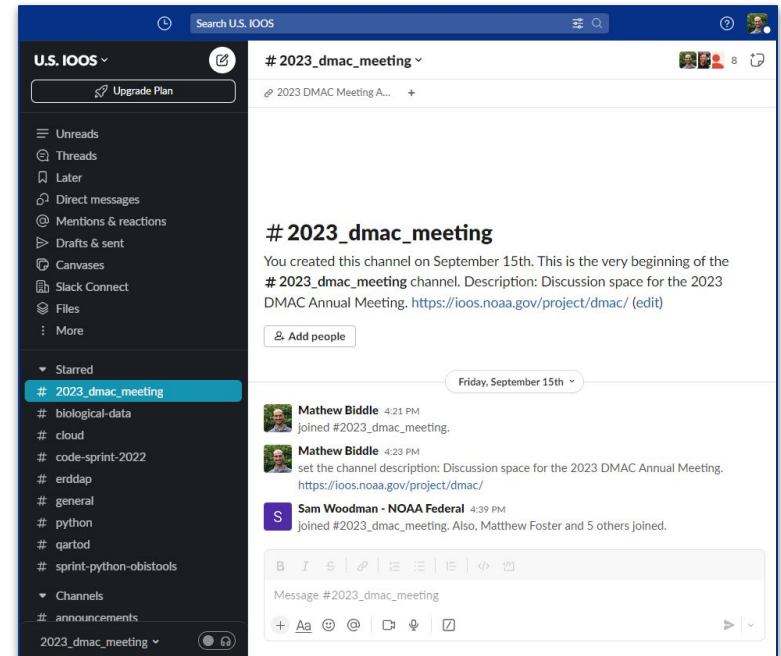

# Virtual Meeting Guidelines/Etiquette

## On Zoom:

- Please remember to mute! (or we may have to mute you)
- Turning video on is encouraged, especially during breakout discussions and Q & A
- We will not be using the raised hand feature

## Slack ([ioos.slack.com](https://ioos.slack.com))

- Q&A will take place after each presentation
- Please use the Slack channel **#2023\_dmac\_meeting**
- Moderators will ask questions from the Slack channel

## Slack Discussion:

- DMAC community Slack workspace: <https://ioos.slack.com/>
- Use this link <https://tinyurl.com/join-ioos-slack> to join
- Questions during the presentations?
  - Post them to **#2023\_dmac\_meeting** channel

The image displays three overlapping screenshots of the Slack desktop application interface, illustrating the steps to find a specific channel:

- Left Screenshot:** Shows the Slack workspace for "U.S. IOOS". The "Channels" section in the left sidebar is expanded, and the "Create" button is highlighted. A dropdown menu is open, showing "Manage" and "Browse channels" options.
- Middle Screenshot:** Shows the same workspace with the "All channels" option selected in the left sidebar. The word "Done" is visible in the background.
- Right Screenshot:** Shows the "All channels" search results page. The search bar contains "dmac". The results list includes:
  - # dmac (272 members)
  - # 2023\_dmac\_meeting (8 members) - Discussion space for the 2023 DMAC Annual Meeting. Buttons for "View" and "Leave" are visible.
  - # erddap (49 members)
  - # pangeo (19 members)
  - # machine-learning (9 members)
  - # mbon (5 members)

# Breakout Discussions

## Tuesday (2:05 - 4:40 ET):

- DOI generation by NCEI
- Tools and Best Practices for Data Pipeline Documentation
- Overview of Kerchunk/Xpublish

## Wednesday (2:10 - 4:40 ET):

- State of ERDDAP
- Modeling: tools for observational data access/subsetting/aggregation, QA/QC, visualization, validation

## Thursday (9:00 - 3:00 ET):

- Cloud-native data management, DMAC & Xpublish
- IOOS GitHub management and demos
- *Open breakout option available*

**Reminder:** Breakout session leads will give short 5 - 7 minute report-outs at the end of each day to the main meeting room.

This slide is intentionally left blank.

# DMAC Meeting 2023 Recap

Thanks to our breakfast sponsors:

- RPS Group
- Axiom Data Science

Thanks to our meeting support team:

- COL (Masha Edmonson, Kruti Desai, Nick Rome)
- IOOS/RB&P (Amira Boone-Ofosu, Debra Esty)

# DMAC Meeting 2023 Recap

We want to hear from you! (are you surprised?)

Meeting evaluation form link:

<https://forms.gle/VYtWMwdhxSKKfdqA7>

Discussion questions or real-time feedback:

- What did you like/dislike about the meeting?
- What next steps should we take as a community?
- How can we improve next year's DMAC meeting?
- Closing thoughts, floor is open
- Next DMAC meeting: **early May 2024??**
